PROFILE SUMMARY

Results-driven Software Developer with strong full-stack expertise in building scalable web applications. Proficient in modern frameworks, clean code practices, and problem-solving, with a focus on delivering efficient, user-centric solutions in fast-paced environments.

EDUCATION

Christ University <i>Master of Computer Applications, MCA</i>	Bengaluru, Karnataka <i>July 2024 – June 2026</i>
Acharya Institute of Graduate Studies <i>Bachelor of Computer Applications, BCA</i>	Bengaluru, Karnataka <i>October 2020 – September 2023</i>

EXPERIENCE

LLM Post Training Intern <i>Ethara AI</i>	Jan 2026 – Present <i>Gurugram, Haryana</i>
- Supported 5+ AI/data projects, executing LLM post-training and evaluation workflows that improved output consistency by 20%. - Delivered 100+ high-quality data annotations/evaluations with 88% accuracy, meeting 100% of deadlines using industry-standard AI processes. - Incorporated feedback from Quality Leads to reduce revision cycles by 30%, ensuring full compliance with quality guidelines and adapting to changing business needs.	

PROJECTS

CampusSync <i>React, FastAPI, PostgreSQL, scikit-learn, Docker</i> GitHub	Jan 2026 – March 2026
- Built a full-stack workflow automation system with 25+ REST APIs, improving request processing efficiency by 35%. - Developed ML delay prediction models (LR, RF, GB, SVM, MLP) achieving 98.6% accuracy, reducing delayed requests by 30%. - Designed real-time analytics dashboards and alerting system, cutting issue detection time by 40% via automated email escalation.	
Punch It - Attendance Manager <i>Java, JavaFX, SQLite, Maven</i> GitHub	2025
- Built a JavaFX desktop app using MVC architecture with SQLite, enabling real-time tracking for 10+ subjects with persistent storage. - Engineered attendance prediction algorithms, improving decision accuracy by 40% via real-time insights on required classes and safe absences. - Designed interactive dashboard with analytics and CSV export, reducing manual tracking effort by 50% and enhancing UX with dynamic UI.	

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, C, C++

Frontend: React.js, HTML5, CSS3, Tailwind, Material UI

Backend: Node.js, Express.js, Python

Databases: MongoDB, MySQL, Postgres, Firebase

Tools: Git, GitHub, Postman, VS Code, Jupyter

Concepts: REST APIs, State Management, Data Structures, Machine Learning Basics
